

# VILLA OPENS SONORA CAMPAIGN; TORREON TELLS HOW HE ESCAPED

**Wants to Drive His Men Against the Carrancistas There While His Other Forces Are After Them in North-east; Stories Regarding Torreon Campaign Are Widely Different; Madero Is Governor.**

**F**OLLOWING a conference with Villa at Torreon, Gen. Rivera, military governor of Sonora, has left to take charge of the west coast campaign, according to Villa's advisers received here. It now appears that this movement will be almost as important as that now being waged in the north-east and that the movement of Rivera is part of a plan worked out by Villa which resulted in his sending Gen.

Juan Cabral to southern Sonora with 2500 men.

## West Coast Campaign.

The west coast campaign will be made from three different directions at once. Rivera will be in command of the troops attacking from the west and Gen. Cabral will invade the state from the north. The southern campaign will be under command of Gen. Julian Medina, who, according to Villa's advisers, has practically cleared Jalisco of Carrancistas. Gen. Miguel Diegues, who was the Carrancista commander at Guadalajara, has retreated to Sinaloa, following a series of defeats in both Jalisco and the territory of Tepic.

Carrancista advisers regarding Gen. Ramon Toribio, Carrancista military governor of Sinaloa, state that he, at the head of a large body of troops, has invaded southern Sonora and has already arrived at Altamira, on the line to Hermosillo. If this is the case the Guaymas garrison is isolated.

## Epiphany Is Here.

Martin Epiphany, one of the nine Aguascalientes delegates charged with stealing the flag that was killed and captured by all of the members of the original convention, at El Paso, following the seizure of the flag, it was reported that the nine delegates fled to San Luis, Chihuahua, and there formed an independent convention, taking the possession of the flag as their sovereign authority. Carrancistas here declared that Epiphany later offered his services to Gen. Antonio I. Villarreal, but that these were rejected. Epiphany was governor of the territory of Tepic under Madero and was head of the military court in Mexico City during the Carrancista regime. He is now claimed as a Villista.

## Reports Regarding the Fighting.

Reports regarding the fighting around Monterrey continue to differ. It is claimed by the Villistas that the Carrancistas have been driven from the city and that they have surrounded the city. The Carrancistas, however, claim that they have been driven from the city and that they have surrounded the city. The Carrancistas, however, claim that they have been driven from the city and that they have surrounded the city.

## Reorganizing the Army.

According to Villa's advisers received here, a comprehensive plan for the reorganization of the convention army has been put in effect by the governor of war Robles. He has ordered that, within the next week, a review of all troops be held. Reports as to the location, equipment and command of the various bodies will then be made to the war department. This system will be maintained, at least for the time being, until the first five days of each month. A corps of inspectors has been appointed by the war department to supervise these reviews.

## Madero as State Governor.

Emilio Madero, a brother of the late president of the United States, has been appointed military governor of Nuevo Leon according to a message received by the Carrancista agency here Thursday. It is based on the Carrancista agency here Thursday. It is based on the Carrancista agency here Thursday.

## Carothers Relieves Villa.

George C. Carothers, who has waived his resignation as state department representative upon urgent request of the Washington government, has left to join Gen. Villa in the field. It was reported that Gen. Villa had refused to receive Leon Canova as a state department agent on account of Canova's alleged participation in the escape from Mexico of Eduardo Toribio, who acted as chief of the federal district just after the Carrancista evacuation.

## DOUBT AS TO THE ELECTION OF GUTIERREZ

Washington, D. C., Jan. 15.—Doubt as to whether Gen. Gutierrez had been elected president of the Mexican City as provisional president existed Thursday at the state department. A telegram from Mexico City announced that the chairman of the convention, late Tuesday night, gave out a notice "that the convention had concluded it would elect Gutierrez president of the office," but for some unknown reason the notice was recalled.

## OPHELIA

**Says Backache is sign you have been eating too much meat.**

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat. Meat forms acid which overworks the kidneys in their effort to filter it from the blood and they become sore and inflamed and lazy.

When your kidneys get sluggish, you must relieve them, like you backache, bowels, removing all the body's urinous waste, else you have backache, bad headache, dizzy spells, your stomach sores, tongue is coated, and when the weather is bad you have rheumatic twinges.

Cloudy, full of sediment, channels often get sore, water acids and you are obliged to seek relief two or three times during the day.

Either consult a good, reliable physician at once or get from your pharmacist about a box of J. J. Salts.

Take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine.

This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

J. J. Salts is a life-saver for regular meat eaters. It is increasing, cleansing and makes a delightful, effervescent lithia-water drink.
